2014 NOVEMBER

To Whom It May Concern

Working with BGS has been a pleasure right from the start, as their team captures a unique combination of knowledge and experience. They have proven to be effective and professional.

Our experience with the Baltic Ground Services at our base station Vilnius has been positive and successful. We wish them well in their efforts to grow into other aviation markets within the EU.

Baltic Ground Service is a reliable and professional company with the drive to reach its customer's expectations!

ALL THE BEST,

Air Lituania
Justinas Paškevičius
Head of Ground Operations Division
