

At BGS, we are deeply committed to environmental responsibility and recognize the critical importance of minimizing our environmental impact. As a responsible member of the aviation industry, we understand that protecting the environment is essential for the long-term sustainability of our business and the planet.

Our Environmental Policy outlines our dedication to the following principles:

CARBON FOOTPRINT REDUCTION

- ↘ BGS is committed to reducing our carbon footprint through energy-efficient practices, optimized fuel consumption, and investments in technologies to decrease greenhouse gas emissions. We prioritize green vehicles and equipment whenever feasible, aligning with our commitment to sustainability. We conduct continuous monitoring and assessment to identify further opportunities for carbon footprint reduction

WASTE MINIMIZATION

- ↘ BGS is committed to minimizing waste generation through efficient processes and sustainable practices. We encourage waste sorting and continuously explore innovative solutions to reduce our environmental impact.

COMPLIANCE

- ↘ BGS commits to compliance with environmental laws and industry standards. We maintain robust environmental management systems for continuous improvement. Regular audits assess our performance and identify areas for enhancement.

STAKEHOLDER ENGAGEMENT

- ↘ BGS ensures transparency by reporting our progress and results. Stakeholder feedback is valued and integrated into our initiatives for meaningful change.

CONTINUOUS IMPROVEMENT

- ↘ BGS prioritizes ongoing training to enhance environmental performance. By equipping our team with the necessary skills, we empower them to contribute effectively to our sustainability goals.

REPORTING

- ↘ At BGS, we prioritize a culture of environmental vigilance, where every employee is encouraged to promptly report any environmental concerns or incidents. We deeply value and appreciate our employees' proactive engagement in this regard, as it enables us to swiftly address issues, enhance our environmental performance, and continually improve our sustainability practices.

By adhering to these principles, BGS aims to demonstrate engagement in environmental responsibility within the aviation industry. We understand that protecting the environment is not only a moral imperative but also essential for the long-term sustainability of our business and the planet.
